The Postgraduate Orientation provides valuable insights into the skills, techniques and expectations required to secure your success in your postgraduate studies. We encourage all new postgraduate coursework students to attend.

Perhaps the most important aspect of the program is the opportunity to meet your fellow students from around the world, and staff from the Faculty of Economics and Business.

Students are invited to all or part of the program, depending on individual availability and needs.

For information on the mentoring program contact Nadia McDonagh on mentoring@econ.usyd.edu.au
