Guidelines for the Completion of an Application for Special Consideration

The University's assessment practices are designed to ensure that conditions are fair to all students, as consistent as possible and that individual students are not disadvantaged by adverse personal circumstances beyond their control or by the activities of other students.

Generally, serious illness or misadventure will be taken into account when considering a student's academic performance in a course or units of study. There is, however, a clear distinction between longstanding illness or difficulties which prevent students from attending classes or completing required work or which seriously interfere with their capacity to study for long periods and short-term serious illness or misadventure that may prevent a well-prepared student from sitting for an examination or completing a particular assignment. This policy deals with short-term illness; long-term illness should lead to the student withdrawing from the unit or units of study affected or suspending candidature as appropriate.

The information you supply on this document is needed by the University so that it can deal with your application for special consideration. This document, and any associated records, will be retained by the relevant faculty. The records will only be available to those staff who need access to it in order to carry out their duties. All records will be destroyed in a secure manner at the appropriate time. Any request to access and/or correct the information should be addressed to the relevant faculty office, in the first instance.
